

CAMBRIDGE MAJOR LABORATORIES INC TO USE PROCEDURECAPTURE FOR THEIR COMPUTER SYSTEMS VALIDATION AND TO GENERATE THE REQUIRED DOCUMENTED EVIDENCE REQUIRED FOR REGULATED ENVIRONMENTS.

Germantown, Wisconsin – August 2014

Cambridge Major Laboratories, Inc. is a leading global chemistry outsourcing partner to the pharmaceutical and biotechnology industries. Cambridge Major produces pharmaceutical intermediates and Active Pharmaceutical Ingredients (API), from early preclinical development to commercial manufacture.

Operating three facilities in the U.S. and Europe, Cambridge Major is organized by five key integrated Centers of Excellence; Process chemistry, API Manufacturing, Analytical Sciences, Solid State Chemistry and Quality Assurance.

Germantown, Wisconsin – August , 2014 - Raltus Software, the leading solution for validating computer systems, announced that Cambridge Major recently selected ProcedureCapture to help validate their computer systems so that they comply with regulatory requirements.

ProcedureCapture is the only solution which generates conclusive and indisputable documented evidence and uses a single license for the whole lifecycle of :

- Requirements Management.
- Risk Assessment.
- Test Script Capture.
- Review and Pre Approval of Scripts.
- Paper and Paperless execution.
- Manual or Automated testing with Electronic Signatures.
- Defect Management and Tracking.
- Trace Matrices and generation of documented evidence.
- End user guides and training materials.

Cambridge Major demonstrates what customers are directly telling us said Ann Devine, Vice President of Marketing for Raltus – "ProcedureCapture helps companies significantly reduce the cost and resource burden of validating their computer system and this directly translates into a 40% decrease in the time to create test scripts and a 60% decrease in time to execute these scripts". Devine continued "We're pleased to work with Cambridge and are proud to be able to make such a positive impact on their validation efforts".

"ProcedureCapture is the only tool we have found which is capable of both generating image populated compliant documentation and then if required use the same asset to paperlessly run and electronically sign the actual procedures to confirm that they works as expected."

IT Director,
Cambridge Major
