

**NIVASOFT GROUP TO USE PROCEDURECAPTURE TO SATISFY VALIDATION REQUIREMENTS FOR THEIR PHARMA AND LIFE SCIENCES CUSTOMERS.**

*New Jersey, US – April, 2014*

Nivasoft is firmly established in both the US and India and has a broad customer base ranging from small companies to large enterprises.

Life sciences companies are increasingly facing demands as they seek to maximize efficiency throughout the validation life cycle and are looking to their partners for validation and to help produce the traceability, testing and the associated documented evidence. In most cases, automated systems that drive mission-critical cGMP and manufacturing processes require software validation. Validation ensures that systems perform according to their intended use and are in compliance with key regulatory requirements.

New Jersey, US – April , 2014 - Raltus Software, the leading solution for improving quality and reducing testing costs, announced that the Nivasoft Group recently selected ProcedureCapture to help their life sciences companies to validate their Software so that they comply with regulatory requirements.

ProcedureCapture is the only solution which generates conclusive and indisputable documented evidence and uses a single license for the whole lifecycle of :

- Requirements Management
- Risk Assessment
- Test Script Capture
- Review and Pre Approval of Scripts
- Paper and Paperless execution
- Manual or Automated testing with Electronic Signatures
- Defect Management and Tracking
- Trace Matrices and generation of documented evidence
- End user guides and training materials
- 

NivaSoft demonstrates what customers are directly telling us said Ann Devine, Vice President of Marketing for Raltus – “Being able to easily capture IQ/OQ test scripts and then being able to execute them in a paper or paperless way plays a crucial role in fulfilling their CSV requirement”. Devine continued “We're pleased to work with Nivasoft and their customers and and are proud to be able to make such a positive impact on their offering”.

**"ProcedureCapture is the only tool we have found which is capable of both generating image populated compliant documentation and then if required use the same asset to paperlessly run and electronically sign the actual procedures to confirm that they works as expected."**

**Srini Moramchetty,  
NivaSoft's President**
