**RANIR, LLC, A LEADING CONSUMER ORAL CARE COMPANY TO USE PROCEDURECAPTURE TO VALIDATE THAT THEIR COMPUTER SYSTEMS ARE TESTED AND DOCUMENTED BASED ON GAMP, CGMPS AND 21 CFR PART 11.**

*Washington -US – April , 2012*

Ranir, headquartered in Grand Rapids, Michigan manufactures and markets consumer oral care products to leading retail customers and branded oral care companies in North America.

Washington -US – April , 2012 - Raltus Software, the leading solution for documenting and testing in regulated environments, announced that Ranir LLC recently selected ProcedureCapture to help test and document their IT systems and procedures based on GAMP, cGMP and 21 CFR part 11.

ProcedureCapture® produces IQ/OQ/PQ test scripts and results along with end user SOP's and training materials. It automatically produces Test cases for checking that System has been installed and are working correctly in User environment, shows results of executing scripts and gives the deviations from expected results (if any). From the same assets It also automatically documents procedures for users, system administrators, and IT related functions such as Backup & Restore and Archiving.

Mike Willison, Ranir's IT Director commented "ProcedureCapture is the only tool we have found which is capable of both automatically producing documentation and then automatically running the actual procedures to validate that they works as expected."

Ranir LLC demonstrates what customers are directly telling us said Ann Devine, Vice President of Marketing for Raltus – "Having a tool which reduces the CSV resource overhead in regulated environments plays a crucial role in reducing costs while still ensuring compliance". Devine continued "We're pleased to work with Ranir LLC and are proud to be able to make such a positive impact on their releases".

**“ProcedureCapture is the only tool we have found which is capable of both automatically producing documentation and then automatically running the actual procedures to validate that they works as expected.”**
